

Kawasaki KH250B

KH250B: the sophisticated triple that's unique in the world

In this day and age it's getting more difficult than ever to buy a motorcycle unlike someone else. You'll be safe with our KH250B. It's our littlest triple and nobody else makes a 3-cylinder 2-stroke bike like this anywhere. And it's a refined machine for the "man about town" kind of rider who prefers sophisticated engineering to raw horsepower. The KH250B's engine turns on power like a turbine—a smooth surge—and works through a 5-speed gearbox to give you a controlled and comfortable ride. We loaded it with good things like a

disc brake in front, a full range of instruments, a 2-level seat, and thoroughly modern styling. But the way it goes is the most fun of all. Use it as a distinctive sports machine for going to work or on a long weekend's touring. You'll like the way it handles everything with ease, effortlessly. KH250B: a different kind of experience in motorcycling today.

KH250-B4 SPECIFICATIONS

PERFORMANCE

Maximum horsepower	26 hp/7,000 rpm
Maximum torque	2.7 kg-m/6,500 rpm

ENGINE

Type	2-stroke, 3-cylinder, piston valve
Displacement	249 cc
Bore and stroke	45.0 x 52.3 mm
Compression ratio	7.5 : 1
Starting system	Kick

TRANSMISSION

Type	5-speed, constant mesh, return shift
Clutch	Wet, multi-disc

FRAME

Type	Tubular, double cradle
Suspension: Front	Telescopic fork
Rear	Swing arm

Tyre size: Front	3.25-S18 4PR
Rear	3.50-S18 4PR

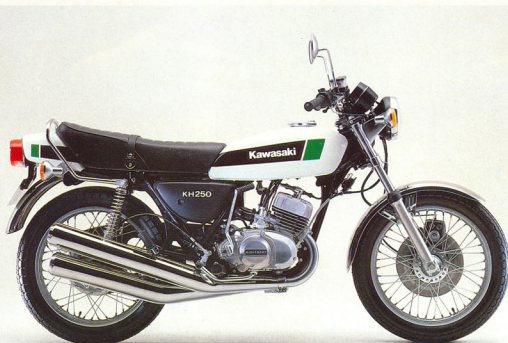

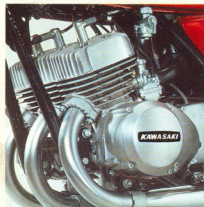

BRAKES

Front	Single disc brake, effective disc dia, 226 mm
Rear	Drum, 180 x 30 mm

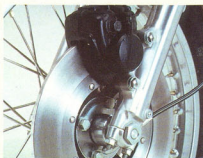

DIMENSIONS

Length, overall	2,085 mm
Width, overall	760 mm
Height, overall	1,045 mm
Wheelbase	1,375 mm
Ground clearance	155 mm
Dry weight	160 kg
Fuel tank capacity	14.0 litres
