FOREWORD

KAWASAKI has decided to accept the ISO (International Standardization Organization) RECOMMENDATIONS on screw threads of bolts and nuts, and ISO STANDARD is applied on this KAWASAKI 250 & 350 A-Series Model from 1, Jun. 1969.

1. The screw thread pitch will be altered in the bolts, nuts and screws of 3, 4, 5 and 12m/m diameters as follows.

Diameter (m/m)	Pitch (m/m)	
	Old	ISO
3	0.60	0.50
4	0.75	0.70
5	0.90	0.80
12	1.50	1.25

Properly pay attention when you begin work since some of ISO parts have no interchangeability with old standard parts in case of being the same outside diameter.

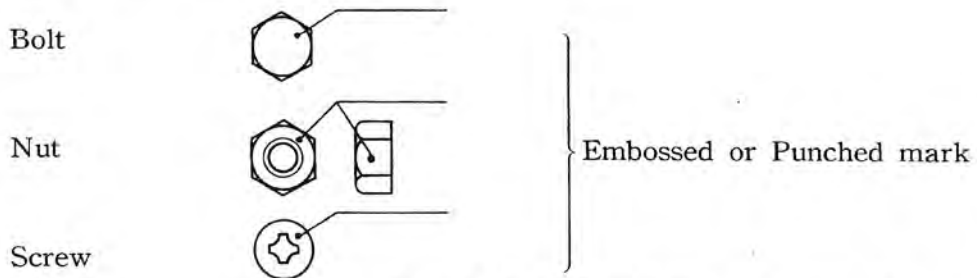

The pitches of the screw, bolt and nut of 6, 8, 10, 14 and more diameters are unaltered.

2. Parts Number of standard bolts, nuts and screws.
